The Federal Democratic Republic of Nepal, acting through the Ministry of Finance (the “Government”) and the United States of America, acting through the Millennium Challenge Corporation (“MCC”), entered into a Millennium Challenge Compact on 14 September 2017, for a grant of USD 550 million to which, the Government will contribute USD 197 million for a program to reduce poverty through economic growth in Nepal, and intends to apply part of the proceeds toward payments under the contract to be awarded for the “Design of the Regulatory Information Management System (RIMS) with enterprise-grade Document Management System (DMS) for the Electricity Regulatory Commission (ERC)”.

MCC’s funding is appropriated by the U.S. Congress and obligated to the compact up-front, with no incremental or partial funding. So, when a contract is signed with an Accountable Entity, money is already available to the Accountable Entity and, for most contracts, invoices are paid directly to offerors by the US Treasury. MCA-Nepal now invites offers from eligible offerors for the “Design of the Regulatory Information Management System (RIMS) with enterprise-grade Document Management System (DMS) for the Electricity Regulatory Commission (ERC), Nepal”.

The procurement will be conducted as per the Quality and Cost-Based Selection (QCBS) method specified in the Accountable Entity Procurement Policy and Guidelines (PPG) available on <https://www.mcanp.org/en/ProcurementGuidelines> and is open to all eligible consultants as defined in the PPG.

A complete set of Request for Offers (RFO) documents can be obtained by interested eligible offerors by completing the form in the link: <https://forms.cloud.microsoft/r/qjDmy0sBVE>, which will provide access to the full set of RFO documents.
