Section VII: Modification to the contract/concession

Description of the procurement after the modifications

Main site or place of performance

Mykolaiv, Ukraine

*Description of the procurement after the contract modification

The procurement concerns the selection of an engineering consulting firm (or a Joint Venture, consortium, or association of firms) to provide construction supervision and contract administration services for the construction of the Water Treatment Plant in Mykolaiv. The Consultant shall demonstrate adequate technical, financial, and managerial capacity and provide a team of nine key experts supported by qualified non-key experts. The Consultant will perform the duties of the Client's Engineer/Project Manager, including construction supervision, contract administration, and monitoring compliance with the environmental and social requirements of the European Investment Bank. The contract will be awarded using the Most Economically Advantageous Tender (MEAT) method based on a combination of quality and price criteria, through a Full Technical Proposal (FTP) procedure in accordance with the European Investment Bank's Guide to Procurement for Projects Financed by the EIB.
